NOVEMBER 30, 2015 SPECIAL BREAKFAST BRIEFING: RAIL TAX

Panel Discussion on Rail Tax Suit

On October 21, 2015, the Tax Foundation of Hawaii filed suit in First Circuit Court to stop the State's practice of skimming 10% off the top of rail surcharge collections without regard to the State's cost to administer it. While the lawsuit makes its way through the court system, the Foundation has put together a panel to help our members achieve a deeper understanding of the issues involved, including a historical perspective on the issues and constitutional limitations on the State's power to tax.
